

Submit your group list by Oct.3

- Send your list of groups to TA: jxiaab{at}cse.ust.hk
 - TA is on study leave next week, may not be able to reply your email in time, but try to check every two days.
 - Please follow this format:
 - Name, itsc, student ID. We will contact the first person in the list.
 - You also need to submit your group even if you have less than value.

Comment on the project specification

- We uploaded a specification for your comment on Canvas.
 - Please post your comments on the discussion area.
 - We can change some requirements, this is not finalized.

Other Topics today

- 1. In detailed discussion of PCA variance.
- 2. why max variance = minimize reconstruction loss?
 - We will uploads the scripts later.
- 3. (If time permits) a quick go-through of GitHub and Kaggle
